Fourth.—The BULLETIN of the Art-Union, which has now been enlarged to include, in addition to the usual Catalogue of Pictures and List of Subscribers, particular descriptions of works purchased for distribution, news of interest in relation to the Fine Arts, extracts from the correspondence of the Institution, Wood-cut Illustrations of Paintings belonging to the Gallery, and generally such matters of interest connected with the Art-Union as may be desirable to subscribers, will be furnished gratuitously to Honorary Secretaries, and to those members who, after paying their subscriptions, shall signify their desire to have it forwarded to them by mail. mail. To all others the price will be six cents per number.

Distribution of the Engravings, and the Annual Report of the year 1848.—The Engraving of "Queen Mary signing the Death Warrant of Lady Jane Grey," upon steel, and measuring 23 inches by 153 inches, was finished early in the year, and has been in the hands of the printer ever since its completion. Prints are being taken from it at the rate of fifty per day, and the distribution of them will commence about the first day of May next.

An effort will be made to deliver them as nearly as possible in the order of the receipt of subscriptions. Those Honorary Secretaries, therefore, who transmitted the earliest remittances may expect to be first supplied. The Oulties Illustrations of Rip Van Winkle will be ready for delivery at the same time with the "Queen Mary."

The "Transactions" will be published and distributed at the same time with the engravings.

The Engraving for the year 1849.—The plate of "Youth," being the second picture of Mr. Cole's celebrated series of the "Yougag of Life," is in progress under the skilful burin of Mr. James Smilie, who will undoubtedly make it the best large land-

gress under the skilful burin of Mr. James Smille, who will undoubtedly make it the best large land-scape engraving ever executed in this country. A small etching of this picture will accompany the volume of "Transactions" about to be published.

The Medal for the year 1849.—The subject of this medal is the head of Colonel Trumbull, in continuation of the series of distinguished American artists, commenced by the representations of Allston and Stuart.

Bronze Statuettes—A committee was appointed.

some time since by the General Board to inquire into the expediency of procuring statuettes in bronze for distribution at the next annual meeting. The London Art-Union for several years has expended most judiciously a portion of its funds in encouraging this branch of Art. There has always been a difficulty in this country in obtaining proper workmen, which is the principal reason why reduced copies in bronze have not already been made of several exquisite statues, modelled by our own duced copies in broaze have not already been made of several exquisite statues, modelled by our own artists, and which seemed peculiarly adapted to this mode of treatment. This obstacle has now been removed, and there are here at present several persons lately arrived from Europe, who are fully competent to undertake this kind of work. Indeed, the small bust of an Indian, beautifully modelled by Brown, has been reproduced in bronze by one of these artists in a very satisfactory manner. A resolution has accordingly been passed, in accordance with the recommendation of the special committee of inquiry, that Mr. Brown be commissioned to model a statuette in bronze, twenty inches in height, illustrative of Indian form and character, and that twenty copies in bronze be cast for distribution among the members of the year 1849.

Etchings in Outline for the year 1849.—A set of Outlines, similar to the illustrations of Rip Van Winkle, will undoubtedly be published for the members of the present year. The special committee upon Engravings have the subject under consideration, but have as yet made no report upon it to the General Board. Due notice shall be given as soon as that body pass a decisive resolution in relation to it.

Committee of Trustees for distributing the Stock.

Ten per cent. to be paid in cash on subscription, the balance of ninety per cent. within ten days, at either of the banks of Vermont, or Montpelier.

An additional class of insured members will be adopted by the Trustees, to be conducted upon the joint-stock principle under which all of the premiums of this new class will revert to the holders of the Reserved Guarantee Stock, whereby the intrinsic value and price of the stock will not only be permanently sustained at ten per cent. advance. A peculiar feature in the safety of this stock over every other is, that before the holders of the Reserved Guarantee Fund can ever be made liable for contribution or loss in any way, not only all the cash premiums of five classes of members, but all the deposite premium and interest notes to three and six times the cash payments, which can never amount to less than from three to four hundred thousand dollars annually, must first be consumed or exhausted by prior losses—an event impossible to occur within the scope of any human event whatever.

Worcester's Universal and Critical Dictionary of the English Language.

By J. E. Worcester, LL. D.

One volume, Seo. sheep, 1032 pages—Price \$3 50.

The publishers respectfully invite attention to the following eminent testimony to the excellence of this standard dictionary.

The execution of this Dictionary fully answers to its title. The Vocasulary is probably more comprehensive than that of all preceding English Dictionaries united. Constant reference is made to authorities with respect to words newly introduced, and care is taken to note such as are technical, foreign, obsolete, provincial, or vulgar. The Definitions are clear and exact, and those pertaining to technical and scientific terms are specially valuable to the general reader. The author has evidently bestowed great labor on Pronunciation. His system of Notation, which is easily understood, and founded on a more complete analysis of the vowel sounds than we have elsewhere met with, together with his plan of exhibiting all the best English authorities in relation to words differently pronounced by different orthoepists, gives to this work important advantages as a Pronouncing Dictionary. In Orthography he has made no arbitrary changes, but where usage is various and fluctuating, he has aimed to be consistent, and to reduce to the same rules words of similar formation. The insertion of Grammatical forms and inflections of words to a much greater extent than they are given in other English Dictionaries, and the short critical notes on the orthography, the pronunciation, the grammatical form and construction, and the peculiar, technical, local, and American uses of words interspersed through the volume, give to this work much additional value. The copious Vocabulary of Modern Geographical names, with their pronunciation, and Scripture proper names, are important appendages to the Dictionary. Eighteen months have passed since this Dictionary. Eighteen months have passed since this Dictionary was published; and its already extensive use, both among culi
